

Assay Kits for Epigenetic Research

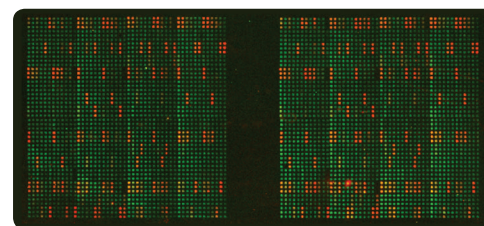

EpiTitan™ Histone Peptide Array

Item No. 17626

Features:

- Array covers over 95 unique modifications on the four core histones
- Perform multiple experiments per array
- Determine the specificity of histone binding proteins, the selectivity of histone antibodies, and identify substrates for histone-modifying enzymes

FEATURED PRODUCT

EpiTitan™ Histone Peptide Array Data

Readers

- Chromatin Reader Domain TR-FRET Assay Kits
 - Bromodomain TR-FRET Assay Kits – 16 assays available, including BAZ, BRD, BRG, BRM, CBP, and TAF
 - L3MBTL1 MBT Domains TR-FRET Assay Kit – Item No. 601030
- EpiTitan™ Histone Peptide Array – Item No. 17626

Writers

- HAT Inhibitor Screening Assay Kit – Item No. 10006515
- Methyltransferase Assay Kits – Colorimetric (Item No. 700140) & Fluorometric (Item No. 700150)
- SAM-Screener™ Assay Kits
 - GLP SAM-Screener™ Assay Kit – Item No. 600570
 - MLL1 SAM-Screener™ Assay Kit – Item No. 600580
 - SET7/9 SAM-Screener™ Assay Kit – Item No. 600490

Erasers

- HDAC Cell-Based Activity Assay Kit – Item No. 600150
- HDAC8 Inhibitor Screening Assay Kit – Item No. 700230
- LSD1 Inhibitor Screening Assay Kit – Item No. 700120
- SIRT Screening Assay Kits
 - SIRT1 Direct Fluorescent Screening Assay Kit – Item No. 10010401
 - SIRT1 FRET-Based Screening Assay Kit – Item No. 10010991
 - SIRT2 Direct Fluorescent Screening Assay Kit – Item No. 700280
 - SIRT3 Direct Fluorescent Screening Assay Kit – Item No. 10011566

More than 35 assay kits available for epigenetic research
