## Cholesterol-Related Assay Kits Antibodies, Proteins

PCSK9 is a critical regulator of cholesterol metabolism through its interaction with the hepatic LDL receptor (LDLR). PCSK9 is a kexin (that is, an endopeptidase) found in kidneys, liver, and intestine. It binds to the EGFR-like domain of LDLR, leading to LDLR degradation. Circulating PCSK9 binds to the extracellular EGF-like domain of LDLR, followed by endocytosis and lysosomal degradation of the PCSK9-LDLR complex. Inhibiting the PCSK9-LDLR interaction is an increasingly desirable drug target for lowering LDL-cholesterol levels because of the great demand for new drugs to replace or supplement statins. The newly added research tools are invaluable for studying cholesterol metabolism, atherosclerosis, stroke, heart disease, and other diseases related to cardiovascular disorders. Specifically, BPS' PCSK9 neutralizing antibody, useful as a positive control for inhibition.

Assay Kits		
<a href="#">FXR Agonist Assay Kit (TR-FRET)</a>	384 reactions	78131
<a href="#">PCSK9[Biotinylated]-LDLR Binding Assay Kit</a>	96 reactions	72002
<a href="#">PCSK9-LDLR TR-FRET Assay Kit</a>	384 reactions	72010
<a href="#">PCSK9(D374T)-LDLR TR-FRET Assay Kit</a>	384 reactions	72011
3x PCSK9 TR-FRET Assay Buffer	4 ml	33298
Antibodies		
<a href="#">Anti-PCSK9 Neutralizing Antibody</a>	50 µg	71207
<a href="#">Anti-PCSK9 Neutralizing Antibody, Biotin-labeled</a>	50 µg	71216
Proteins		
<a href="#">CD36, Avi-His-Tag</a>	100 µg	101184
<a href="#">FXR, GST-Tag</a>	50 µg	100410
<a href="#">LDLR, Biotin-labeled</a>	25 µg / 50 µg	71206
<a href="#">LDLR, FLAG-Avi-Tag (Mouse)</a>	50 µg	71222
<a href="#">LDLR, FLAG-tag</a>	50 µg	71205
<a href="#">LDLR, FLAG-Tag, Eu-labeled</a>	50 µg	79079
<a href="#">MYLIP/IDOL, His-FLAG-tag</a>	20 µg	71208
<a href="#">PCSK9(D374T), Biotin-labeled</a>	25 µg / 50 µg	71211
<a href="#">PCSK9, C-terminal Avi-His, Biotin-labeled</a>	50 µg	71305
<a href="#">PCSK9, C-terminal His-Avi-tag, Biotin-labeled</a>	25 µg/ 50 µg / 500 µg	71304
<a href="#">PCSK9, His-Avi-Tag (Mouse)</a>	50 µg	71221-2
<a href="#">PCSK9, His-Avi-Tag (Mouse)</a>	20 µg	71221-1
<a href="#">PCSK9, His-Avi-Tag (Rat)</a>	50 µg	71220-2
<a href="#">PCSK9, His-Avi-Tag (Rat)</a>	20 µg	71220-1
<a href="#">PCSK9, His-tag</a>	20 µg / 50 µg	71204
